

# CH Shadedknoll Camelot, DM

**CH Shadedknoll Camelot, DM**, was born on July 20, 1996, out of GC Shadedknoll Sterling and CH Shadedknoll Sensation. She was a very balanced snow white Chinchilla Silver with a very full, cottony coat and a very cobby body. She had huge, very round, soft green eyes, the color of her sire Sterling's eyes. Her eyes never watered. Her kittens had the same deep blue-green eye color of her grand-sire, GC Diadem Personality Plus, DM. She had her sire's enormously wide top head and small ears. She was gorgeous and produced beautiful kittens.

So Divine of Wyndcreste**

When Camelot was born, Sally immediately noticed her fabulous top head, huge eye slits, round head, and snow white body. She was a keeper from the first moment she was born. As a kitten, she was very playful and rambunctious, playing with her litter sister or an offered toy. "Cammy" was a very flashy Chinchilla, her coat just floated around her. She was shy but very loving, always ready with kisses and head butts. Sally had hopes of granding her as she was one of the best cats she ever bred, but motherhood got in the way. Camelot was a wonderful mother and gave birth easily.

Camelot developed mammary hyperplasia with her first pregnancy. She delivered four babies, but sadly she lost them. All of her mammary glands were extremely swollen, so the kittens could not nurse. As this condition only affects the first pregnancy, Camelot enjoyed several later litters with no problems.

Sally planned to spay and show her in premiership, where she would have quickly granded. When Sally showed her as a kitten, Camelot won Best Kitten in Ricky Carroll's ring and became the first of Sally's Best Kitten/Cat wins! Camelot passed over the Rainbow Bridge in October of 2005, after developing lymph cancer. Camelot is missed immensely--she was a once in a lifetime kitty.
