Because of Hawaii's animal import laws, it was difficult to find a cat that could enter the State without a lengthy quarantine. Australia was exempt from the quarantine, so with the help of Janice Reichle, we found Caroline Boyko and she sent Diamonds to us in October of 1998 to begin our breeding program.

We were fortunate to have Kathryn Vierra on the Big Island of Hawaii provide stud service. Diamonds produced two very nice litters with her GC Joyvyn Purrfect Pursuit of Caldera. Soon thereafter, Janice Reichle sent us Eur CH Eric of Diadem, with whom Diamonds produced more spectacular kittens. Of particular note was GC Nakeli Elegance By Eric who was "Best Kitten in Hawaii" for the 2000 CFA season.

Between litters, Diamonds was shown in Hawaii and graded with ease. Many judges raved about her wonderful boning. She earned her DM on October 28, 2006; our eternal thanks to Caroline Boyko and Janice Reichle for making this possible!

Diamonds was extremely affectionate and communicative. Each night she would climb up onto my husband's lap and knead furiously, talking to him as he stroked her. She was also the consummate mother and took care of everyone's babies. On one occasion, we noticed her tucked away in a corner, nursing two of her 3 month old grandbabies and, although she had not had a litter herself in over two years, we discovered she was actually producing milk!

We lost her suddenly in the spring of 2006 and still miss her immeasurably.
